Section Three. Four marks per question.

- Q41.** Give your decisions with reasons, if the following happens at a penalty corner.
- (A) After the hit out the ball is glanced by an attacker just outside the circle to an attacker inside the circle who hits the ball along the ground into the goal.
 - (B) After the hit out the ball goes outside the circle and the attackers hit at goal from inside the circle is deflected at waist height by the goalkeeper's glove down onto the back board.
- Q42.** When a player, other than the goalkeeper, stops the ball with the body what must the umpire take into consideration before issuing a penalty?
- Q43.** At a penalty stroke the ball catches in the goalkeeper's pads and then the goalkeeper steps back inside the goal. How and where is the game restarted and why?
- Q44.** Team A is one goal up with one minute to play. A defender in team A deliberately plays the ball from outside the twenty three metre area over the goal line they are defending. The ball goes some distance from the field. What actions should the umpire take and what should be awarded?
- Q45.** Team A is one goal up with one minute to play. A defender in team A is awarded a free hit and takes it very quickly fifteen metres from the correct spot and hits the ball the length of the field. What actions should the umpire take and what should be awarded?
- Q46.** An attacker's sideline hit is deflected off another attacker outside the circle and rises about 150mm as it travels into the circle. It passes through a gap, about three metres wide between defenders, to a lone attacker who flicks it hard over the diving goalkeeper towards an open space in the goal mouth, a defender, running across the goal mouth misses the ball with the stick and is struck on the body deflecting the ball outside the goal. What should the umpire consider during this course of events and what decision should the umpire make?

- Q47.** State what action you would take (if any) and why in the following cases:
- (A) An attacker has possession of the ball and is approaching a stationary defender. The attacker passes the ball to the right of the defender and knocks them over while attempting to run round the defender to collect the ball. Because of this collision the attacker loses any chance of regaining the ball which rolls out of play.
 - (B) The ball, within one metre of the back line is rolling quickly towards the back line and is being chased by an attacker who is ten metres behind the ball. Just before the ball crosses the back line a defender runs across between the attacker and the back line.
- Q48.** A forward is two metres from the circle with the ball under control. A defender is standing outside the circle. To beat the defender the attacker lifts the ball at knee height. Give the umpire's decision and reasons if the following happens:
- (A) The lifted ball passes to the side of the defender without danger and lands in the circle where the attacker controls the ball and hits it in the goal.
 - (B) The lifted ball strikes the defender who does not have time to get out of the way. In retaliation the defender punches the attacker.
- Q49.** There is a lengthy stoppage to attend an injured player. In what three ways may the umpire restart the game?
- Q50.** A sweeping tackle is made with the back of the stick; the tackler manages to make contact with the ball before striking the opponent's stick. What should the umpire rule if the tackle is made by a defender:
- (A) Between the twenty three metre lines.
 - (B) Inside the twenty three metre area but outside the circle.
 - (C) Inside the circle.

Q41.

- (A) Award a goal. The ball has travelled outside circle.
- (B) Free hit to defenders. First shot (hit) at goal is too high.

Q42. Before penalising a player for this breach the umpire should be sure that the player intentionally breached. In judging whether the stop is deliberate the umpire should consider:

- (A) Did the player move into the path of the ball?
- (B) Did the player position himself with the clear intention of stopping the ball with the foot or body?
- (C) Did the player have time to avoid being hit and if so did the player make an effort to avoid being hit?
- (D) Did the player gain from his actions?

Note that there is nothing to stop players using their hands to protect themselves from dangerously lifted balls.

ANSWERS

- Q43.** Restart with a push/hit to the defenders 14.63 metres out from the centre of the goal line. The ball is dead as soon as it lodges in the goalkeeper's pads and a successful save has been made. Anything that happens after this is irrelevant as far as the stroke is concerned.
- Q44.** The penalty for deliberate over their back line by a defender is a penalty corner. Time should be stopped to retrieve the ball
- Q45.** Time should be stopped and the free hit reversed. The appropriate card should be issued.
- Q46.** Penalty stroke. The slight lift from the deflection by the attacker outside the circle is not dangerous, the touch by the attacker outside the circle makes the balls entry into the circle legitimate. The push at goal is also not dangerous as it is "into an open space". The defender moves into the path of the ball trying to stop the ball thus an accidental breach preventing a goal.
- Q47.**
- (A) Free hit to defender for the attacker knocking over the defender
 - (B) There is no obstruction here as the attacker was not going to reach the ball before it crossed the back line therefore had not been "obstructed from attempting to play the ball". The umpire would therefore award a 14.63 metre hit.
- Q48.**
- (A) Goal. No breach.
 - (B) There are two breaches here. The ball is lifted into a defender who cannot avoid it therefore the forward is penalised. If the lift into the player was deliberate a card may be issued. The second breach, that is the punch by the defender, should have the defender issued with a yellow or red card.
- Q49.** A bully, the appropriate penalty, or a centre pass if a goal was scored.
- Q50.**
- (A) Free hit against tackler and a green or yellow card.
 - (B) Penalty corner and green or yellow card to tackler.
 - (C) Penalty stroke.
